

The PlanMyBenefits report

One day when you retire, your salary will stop. And your money saved up over your working life will be used to pay you an income after retirement.

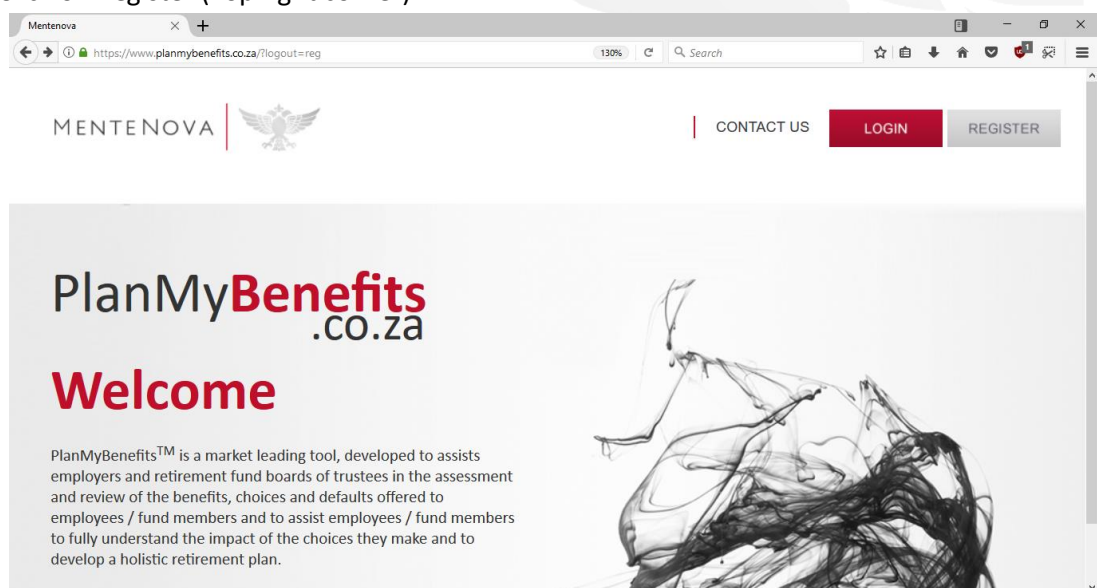

PlanMyBenefits is an online tool that has been designed to illustrate and guide you towards achieving your retirement goals.

On the website you will see how much your retirement income could be (based on your current savings and contribution rate into the Columbus Retirement Fund). It will also show you what you can do today, to increase your income after retirement.
